### **ANALISIS EFEKTIVITAS PROGRAM BANTUAN PANGAN NON TUNAI (BPNT)DIKECAMATAN TERBANGGI BESAR KABUPATEN LAMPUNG TENGAH**

Nirwan Syahrudin. NPM. 19710034. Analisis Efektivitas Program Bantuan Pangan Non Tunai (BPNT)diKecamatan Terbanggi Besar Kabupaten Lampung Tengah. Tesis. Pembimbing (1) Dr. Suharto, S.E., M.M, Pembimbing (2), Dr. Afdal Mazni, S.E., M.M.

Penelitian ini bertujuan untuk mengetahui “Efektivitas Program BPNT diKecamatan Terbanggi Besar Lampung Tengah”. Penelitian dilakukan di Kecamatan Terbanggi Besar yang terdiri dari 10 Desa. Efektivitas program BantuanPangan Non Tunai (BPNT) diukurberdasarkanat pencapaianindikator 6T, yaitutepatsasaran, tepatjumlah, tepatharga, tepatwaktu, tepatkualitas, dantepatadministrasi. Hasilpenelitianmenunjukanbahwa :Keefektifan program BPNT diukur dengan indikator 6T, yaitutepatsasaran, tepatjumlah, tepatharga, tepatwaktu, tepatkualitas, dantepatadministrasi. Berdasarkan hasil penelitian disimpulkan bahwa : Dari indikator 6Tbahwa pada kenyataan di lapangan program BPNT ini hanya satu yang tidak memenuhi indicator, yaitu tidak tepat sasaran, pada kenyataannya dilapangan masih ada KPM yang seharusnya mendapatkan bantuan, akan tetapi tidak mendapatkan dan sebaliknya.Dampak BPNT terhadap masyarakat yaitu hanya dapat menekan biaya pengeluaran rumah tangga miskin dalam membeli beras dan telur,sehingga uang yang mereka miliki dapat dimanfaatkan atau digunakanuntuk kepentingan yang lain. Dampak lainnya yaitu memberikan lebih banyak keseimbangan nutrisi untuk KPM dan mendorong pencapaian SDGs.

Kata kunci : Efektivitas,Program BantuanPangan Non Tunai (BPNT), Dampak

## **ABSTRACT**

*This study aims to see "The Effectiveness of the BPNT Program and its impact on the people of TerbanggiBesar District, Central Lampung". The research was conducted in TerbanggiBesar District, which consists of 10 villages. The effectiveness of the Non-Cash Food Assistance (BPNT) program is based on the level of the 6T indicator level, namely right on target, right quantity, right price, on time, right quality, and right administration. The results showed that: BPNT program effectiveness was measured by 6T indicators, namely the right target, the right amount, the right time, the right quality, and the right administration. Based on the results of the research, it was disseminated that: From the 6T indicator, there was only one BPNT program that did not meet the indicator, which was not on target, in fact there were KPM in the field who should have received assistance, but did not get and vice versa. The impact of BPNT on the community is that it can only pay for household expenses in buying rice and eggs, so that the money they have can be used or used for other purposes. Another impact is to provide more nutritional balance for KPM and encourage SDGs.*
