ABSTRACT

Nur Ilham Widi Astra NPM 19420001.P An Undergraduate Thesis: The Role of Nurul Iman Mosque Youth in the Development of Da'wah in Karangrejo Village, North Metro District, Metro City, Lampung.

The purpose of this research was to understand the program, implementation, and obstacles that occur in the development of da'wah in Karangrejo Village, North Metro District, Metro City, Lampung.

This research used a qualitative approach, with descriptive data analysis methods. The data sources utilized include primary and secondary data. The data collection process was carried out through interviews, observations, and data collection from documentary sources. Data analysis was carried out through the stages of data reduction, data presentation, and conclusion drawing.

Based on the findings of this study, it was revealed that the Nurul Iman Mosque Youth played a very important role in advancing da'wah efforts aimed at the community through adolescents. Through various activities carried out by mosque teenagers, the community illustrated that they played an active role in the activities of the Nurul Iman Mosque. Some of the activities carried out included social services, safari silaturahmi, compensation for orphans, and various other activities. The strategy used to develop da'wah involves organizing various activities given to teenagers with the aim of having a broad impact on society.

The role of the Nurul Iman Mosque Youth was very significant in contributing to society. There were several factors that support the development of this da'wah, such as financial support from BKM Nurul Iman, the availability of facilities that support mosque youth activities, the diversity of mosque youth members involving students and university students, and the extraordinary enthusiasm shown by the head of Nurul Iman Mosque Youth.

However, there were several factors that become obstacles in the development of this da'wah. A number of mosque youth members face busy work and college schedules, some members were less active in carrying out their position duties, and there were other agendas outside the Nurul Iman Mosque Youth activities.
