CHAPTER V

CONCLUSION AND SUGGESTION

This chapter contains two parts consisting of conclusions and. The first section concludes the research results. The second section provides suggestions for students and teachers.

A. Conclusion

As mentioned in the first chapter, the aim of this research is to describe students' abilities in writing descriptive texts that focus on vocabulary, mechanics & organization in Class VIII Students of SMP NEGERI 1 SEPUTIH MATARAM. The researcher wants to conclude that the 19 class VIII students of SMP NEGERI 1 SEPUTIH MATARAM are good at writing descriptive texts. This is shown through the test with an average score of 69.6. As well as a vocabulary score of 72.4, a mechanical score of 63.2, and an organizational score of 72.4.

B. Suggestions

Based on the research conclusions, the researcher recommends several suggestions to improve students' abilities and reduce students' difficulties in writing descriptive texts at VIII SMP NEGERI 1 SEPUTIH MATARAM, namely:

1. For Students'

Researcher suggest that students write sentences, paragraphs or texts as often as possible to improve their writing. In addition, memorize a lot of vocabulary and grammar to reduce difficulties in writing.

2. For Teachers

Researcher have observed that the strategies and materials in learning to write descriptive texts are quite good. However, teachers are advised to pay more attention to vocabulary, mechanics & organization in writing descriptive texts.

3. For Future Reasearcher

Future researchers should use this the sis as an additional reference. so that you can find out the development of students' writing skills regarding descriptive text in the future
