

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the result of this research, the researcher concluded that there are one hundred and five metaphorical expressions in sixteen Taylor Swift song lyrics, all of the songs are indicated to have all of these metaphorical expressions. The types of metaphors used according to (Lakoff and Johnson) are structural, orientational, and ontological metaphors. These three types of metaphors are found in sixteen Taylor Swift song lyrics based on Lakoff and Johnson's theory.

Researcher obtained one hundred and five metaphorical expressions contained in sixteen songs in accordance with the theory put forward by (Lakoff and Johnson). There are thirty four structural metaphors, twenty three orientational metaphors, and forty eight ontological metaphors. Thus, ontological metaphors are the most dominant metaphorical expressions used by singers in creating songs, while the least are structural and orientational metaphors. The researcher also succeeded in explaining the meaning of the metaphor in the song lyrics in terms of lexical meaning and contextual meaning.

B. Suggestion

Based on the conclusions above, the researcher provides several suggestions to other readers and further researchers related to this research. The suggestions are as follows:

1. For other readers

It is hoped that other readers will be inspired and gain more information to better understand metaphors, so that readers can study metaphors in more detail and in more depth in the future.

2. For further researchers

The researcher suggests that the further researcher provide inspiration and develop this research in more detail and detail for further researchers about this research because the researcher

considers that there are still some errors and shortcomings in this research, namely the researcher describes the data obtained from the research unclearly. The researcher also suggests that further researcher contribute to add the ability to analyze metaphors from other elements and other theoretical experts contained in the song.
