

ABSTRAK

YELIANA, ILA: 2020. Pengaruh *Intellegence Quotient, Emotional Intellegence* dan Lingkungan Keluarga Terhadap Minat Berwirausaha Mahasiswa Manajemen FEB UM Metro.Fakultas Ekonomi dan Bisnis , Universitas Muhammadiyah Metro. Di bawah bimbingan (I) H. Suwarto, S.E.,M.M. dan Pembimbing (II) Nani Septiana, S.E.,M.M.

Penelitian difokuskan pada: Pengaruh *Intellegence Quotient, Emotional Intellegence*, dan Lingkungan Keluarga Terhadap Minat Berwirausaha studi pada Mahasiswa Manajemen FEB UM Metro. Tujuan yang hendak dicapai peneliti adalah untuk mengetahui adanya pengaruh secara parsial dan simultan variabel *intellegence quotient, emotional intellegence*, dan lingkungan keluarga terhadap minat berwirausaha mahasiswa manajemen FEB UM Metro.

Metode penelitian yang digunakan adalah deskriptif kuantitatif dengan sampel sebanyak 50 mahasiswa Manajemen FEB UM Metro 2016. Uji persyaratan analisis menggunakan uji normalitas, linieritas dan homogenitas. Pengujian model analisis koefisien determinasi (R^2) dan menggunakan uji hipotesis statistik. Kesimpulan dari hasil penelitian berdasarkan perhitungan regresi linier berganda diperoleh hasil uji t adalah bahwa variabel *emotional intellegence* (X_2) memiliki pengaruh positif dan signifikan terhadap minat berwirausaha mahasiswa Manajemen FEB UM Metro, kemudian *intellegence quotient* (X_1) dan lingkungan keluarga (X_3) tidak memiliki pengaruh positif dan signifikan terhadap minat berwirausaha mahasiswa Manajemen FEB UM Metro. Dari uji F diperoleh *intellegence quotient, emtional intellegence*, dan lingkungan keluarga secara bersama-sama berpengaruh positif dan signifikan terhadap minat berwirausaha mahasiswa Manajemen FEB Um Metro 2016.

Kata Kunci : *Intellegence Quotient, Emotional Intellegence, Lingkungan Keluarga dan Minat Berwirausaha.*

ABSTRACT

YELIANA, ILA: 2020. Effect of Quotient Intellegence, Emotional Intelligence and Family Environment on Entrepreneurial Interest of FEB UM Metro Management Students. Faculty of Economics and Business, Muhammadiyah Metro University. Under the guidance of (I) H. Suwarto, S.E., M.M. and Advisor (II) Nani Septiana, S.E., M.M.

The research is focused on: The Effect of Intelligence Quotient, Emotional Intelligence, and Family Environment on Entrepreneurial Interest in Study at Management Students of FEB UM Metro. The aim of the researcher is to find out the influence of partial and simultaneous variables of intelligence quotient, emotional intelligence, and family environment on the interest of entrepreneurship management of FEB UM Metro students.

The research method used is descriptive quantitative with a sample of 50 Management students of FEB UM Metro 2016. Test requirements analysis uses the test for normality, linearity and homogeneity. Testing the coefficient of determination analysis model (R^2) and using the statistical hypothesis test. The conclusion from the results of the study based on the calculation of multiple linear regression obtained t test results is that the emotional intelligence variable (X_2) has a positive and significant effect on the entrepreneurial interest of FEB UM Metro Management students, then the intelligence quotient (X_1) and family environment (X_3) have no influence positive and significant interest in the entrepreneurial interest of FEB UM Metro Management students. From the F test obtained intelligence quotient, emotional intelligence, and family environment together positively and significantly influence the entrepreneurial interest of FEB Um Metro Management 2016 students.

Keywords: Intellegence Quotient, Emotional Intellegence, Family Environment and Entrepreneurial Interest.
