

CHAPTER III

RESEARCH METHODOLOGY

A. Research Design

The design of this study is library research. The purpose of this design is to provide several comparisons of several existing theories. The method used in this study is descriptive comparative learning. This method is to help researchers make their research reports quite easy to do. The process of collecting data in many ways, the first is looking for some references and some literature. Another source is a thesis that has the same variable. Comparing something is the last step. From these methods can find results or data. So, researcher can conclude whether or not the influence of motivation on English achievement, then the technique used in this study is analysis dialogue and data analysis through existing sources and the data obtained are explained and compared with existing theories. Data is supported from online libraries. (Su and Wang, 2009: 107)

Based on the statement above, library research uses words to present the result of the research. The researcher uses the library research that uses non-numerical data. It is obtained from the dialogue of conversation, hearing, analyze.

B. Setting, Subject, and Object of the Research

In this research, the researcher enormously will do with settle on the setting, subject and object. In viewing of the fact are main character in effecting the research, it is required to have them obvious. Here are the enlightenmen about setting, subject, and object of this researcher which are decided by the researcher.

The setting of this research is carried out in reseacher's house or library research for it is library research and it does not call for certan place to do. So the location can be flexible depends on the researcher disposed. The subject of this research is the movie with fantast entitled The Jungle Book. The object of this research is the characteristic and dialogue of the movie.

C. Data Collecting Technique

The writer of the research uses two techniques in collecting the data. Data collecting technique is conducted thing observation. This strategy is applied by observing the dialogue and personality of main character in the movie. steps taken in collecting the data are as follow:

1. Watching movie with the source language and the target language.
2. Understanding the movie.
3. Finding the dialogue in the selected film in detail, and then identifies the characteristic of main character, psychological factor influence personality and moral value.
4. After identifying, the researcher collected all the data that supported the research.
5. Analyzing with use verbal data coding which means giving a sign in each speech from the response that limits or directs the activity of data in the form of time and screenshots of the scene of each part that will be needed. and other documents collected from the internet to support this research and making a conclusion.

D. Research Instrument

Research instrument in library research is the researcher itself, it is field note in conducting a research. Here the researcher has a movie as source and the dialogue as to search out the data. The researcher analyze with separate the data from the source in the jungle book movie.

E. Data Analyzing Technique

The purpose of this research is to analyze Mowgli in the Jungle Book movie as the main character. The writer uses the descriptive library research method to collect the data and analyzes it by using Sigmund Freud's personality theory and Kurt Lewin theory. After the get of the data, the next step in this research is to analyze. In this research, After the get of the data, the next step in this research is to analyze. This research is use qualitative. The steps of analyzing the data are as follows:

1. Categorizing all data finding in the movie.
2. After the all data are categorized, the examples of each categorization is presented in the tabulating. The table there are some colom to categorize of data finding.
3. After categorizing of the data finding are classified into the stategy of theories and compare of the table.
4. Making a conclussion.
5. Draff of the table.

Table 1. Kind of Characteristic Main Character as Mowgli

No.	Dialogue (Scene)	Character	Code	Mood	Characteristic
1.					
2.					
3.					
4.					
5.					

Table 2. Psychological Factor Influence

No.	Psychological Factor that Influences	Scene
1.		
2.		
3.		
4.		
5.		

Table 3. Moral Value in the Movie

No.	Moral Value	Scene
1.		
2.		
3.		
4.
