

## CHAPTER V

### CONCLUSION AND SUGGESTION

Based on the previous chapter, it gets the result of the study. So, in this chapter, the researcher will give the conclusions based on the problem formulation of the study as follows:

1. Increasing students' vocabulary mastery using Mr. Dennis' video on Instagram at the tenth-grade natural science 2 of SMA Negeri 4 Metro in the academic year 2021/2022 can be concluded that can improve students' vocabulary mastery because the improvement from pre-test, post-test in cycle 1, and post-test in cycle 2 there are: First, the Increase of score from pre-test to post-test in cycle 1 that only 19 students or 57.57% passed the post-test 1 while the pre-test in cycle 1 was 9 students or 27.27%. So, the progress of score from pre-test to post-test in cycle 1 was 30.3%. Second, the Increase of Score from Post-test in cycle 1 to post-test in cycle 2 that 27 students or 81.81% passed the post-test 2 while for post-test in cycle 1 only 19 students or 57.57%. So, the progress of scores from post-test in cycle 1 to post-test in cycle 2 was 24.24%. It can be said this research was a success because students' vocabulary mastery was more than 75%.
2. Using Mr. Dennis' video on Instagram has advantages and disadvantages there are:
  - a. The Advantages of using Mr. Dennis' video on Instagram such as:
    - 1) Can make students not bored  

Learning using Mr. Dennis' videos on Instagram is one solution to teach vocabulary with a modern and fun learning style. so that this video does not make students feel bored because it uses a short duration on Instagram.
    - 2) Can improve vocabulary mastery.

Mr. Videos Dennis on Instagram can increase students' vocabulary because it can help students to make it easier to learn vocabulary because Mr. Dennis' uses interesting strategies and make it easier to understand the material presented by Mr. Dennis'. Therefore, students can make it easier to improve vocabulary skills quickly.

3) Can make students more active.

Can help students become more active in participating in learning activities because Mr. Dennis' videos are one of the effective media for learning English, especially vocabulary mastery so that after watching Mr. Dennis', the students were very enthusiastic trying to answer the teacher's questions.

4) Can help students to remember their knowledge.

Can make it easier to remember previously learned vocabulary about a given topic related to new vocabulary.

b. The Disadvantages of using Mr. Dennis video on Instagram such as:

1) Need a Strong Signal

The researcher uses online learning and the researcher suggests watching Mr. video. Dennis' so it must require a strong signal.

2) Using Mr. Dennis' videos takes a long time to improve students' vocabulary mastery.

Using Mr. Dennis' videos takes a long time to improve students' vocabulary mastery because researchers are said to have succeeded in increasing students' vocabulary mastery which took several weeks based on predetermined criteria.

3) Spending a lot of Internet Data

opening Instagram let alone watching videos, of course, will make your internet quota dying and quickly wasteful.

## **A. Suggestion**

Based on the classroom action research which shows that using Mr. Dennis' video on Instagram can improve vocabulary mastery, therefore the researcher gives some suggestions as follows:

1. For English Teacher, this can help the English teacher to implement an important role in providing feedback in vocabulary material, to evaluate and develop material in the teaching and learning process. Can be an additional material when conducting the teaching process on vocabulary subjects.
2. For students', The researcher suggested to the students to improve their English skills in vocabulary. Vocabulary is the most important skill to learn. By watching Mr. Dennis' on Instagram, students can find out more about a lot of new vocabulary that they haven't learned so that Mr. Dennis' can increase students' vocabulary.
3. Hopefully, there will be further researchers who want to do similar research. In this study, researchers conduct online learning and must need a good signal, therefore other researchers if doing online learning must prepare a good signal.
